CINEMA SEATING FOR THE HOME

Never has top **quality home cinema seating** been so **affordable**

Never has top quality home cinema seating been so affordable

FrontRow™
CINEMA SEATING FOR THE HOME

5 Year Warranty

Offering great value for money **FrontRow™ home cinema seating** offers comfort and design and can now be found in a growing number of award winning home cinema installations.

The Home Cinema chairs have many seating options from single chairs to an infinite number of configurations due to its modular design so, whether it's a single chair, or a row of twelve seats, **FrontRow™** can provide the solution. Popular configurations include two, three, four and five seater

curved options. All seat modules have electric incliners and are available in full high grade leather, microfibre, chunky cord and a range of other fabrics. Each seat come with a comprehensive **five year warranty** covering seat mechanics, frame and materials.

FrontRow™ home cinema seating is designed with comfort in mind using a high quality electric multi-position mechanism transporting you from a vertical to horizontal position at a touch of a button. The inclining action makes it possible to locate the seats close to the wall as the seat moves forward prior to the back of the chair tilting. This feature is ideal where space is at a premium or when the seat would look unsightly being placed away from the wall.

The distinctive sleek modern look of this seating is the result of the quality design which includes solid wooden feet, a comfortable rounded top head rest and electric control panel neatly inset into the upholstery. But the design doesn't stop there.... It's not often you can say that the back of the chairs look as good as the front. This feature is particularly important when multiple rows are used.

The seating is finished in a top quality, maintenance free, leather or a range of fabrics which are available

in an extensive range of colours to ensure they integrate into any décor. All leather used in **FrontRow™ home cinema seating** is dyed throughout and protected giving additional durability and maintenance free use.

A full design service is available on request to ensure the chosen layout will work in your room which is particularly important for tiered combinations to ensure sight lines to the screen are maintained.

Delivery of seats is handled by a specialist logistics company that will not only deliver the chairs but also assemble them in your chosen room and remove any packaging. Seat backs are removable to help with access to attic and basement installations.

If you prefer to have all your refreshments to hand, then the tray accessory offers exactly that. Simple to fit – the rotating tray or cup holder cap fits neatly into the existing cup holder. Engineered from brushed aluminium this accessory is a worthwhile addition to your seating.

Never has top quality home cinema seating been so affordable

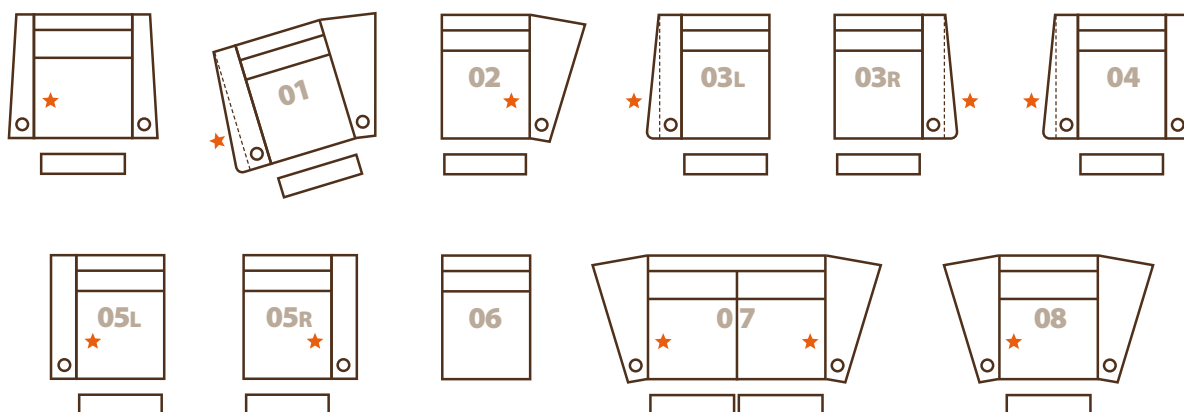

5 Year Warranty

Almost any configuration can be achieved from the range of **FrontRow™ home cinema seating** on offer. So whether it's a single electrically operated recliner or multiple rows to get that true cinematic feel - you can create your perfect seating plan.

Manual or battery operated versions of selected models are available POA.

Colours & Materials

The FrontRow™ home cinema seating range is available in a wide variety of leathers and fabrics including micro fibre and chunky cord.

The leather seating is finished in top quality maintenance free leathers which are available in an extensive range of colours. These are dyed throughout for durability.

Peace of Mind Warranty

Relax and enjoy your new seating

As we all know accidents do happen, a stain if not removed correctly can permanently affect the appearance of your seating.

We want you to sit back and relax with the peace of mind that all your FrontRow™ home cinema seating is protected by the HFR 5 YEAR CARE PLAN†.
